

RFID-enabled Smart Ward Cabinet

for Drug Management

It is a Smart Ward Cabinet based on RFID technology that enables real time inventory control with automatic alert for low stock and item expiry. The process can be managed in real-time to eliminate stock-outs and expired items.

Smart Ward Cabinet
AccuByn-WD-CAB

Smart Controller
AccuByn-WD-MAC

Features & Benefits

Separate RFID Compartment with Temperature/Humidity Monitoring

Automatic Compartment Door Opening for Drug Retrieval & Replenishment

Real Time Inventory Control (Pull Stock Instead of Push Stock)

Real Time Expiry Date Checking at Box Level & Item Level

Traceability for Drug Retrieval & Replenishment

Demands & Trends Prediction (to Reduce Wastage)

Reduce Pharmacy Workload on Distributing Drugs

EPC Class 1 Gen2/ ISO 18000-6C

Support ISO 3394 (Basket Size: 600x400mm)

Replenishment & Expire Alert

Intelligent Lock & Staff Access

RFID Stock Take & Specific Item Search

Enhance Drug Safety

Tailored-made Design

Enhance Efficiency

FIFO Operation

Reduce Human Error

Full Security

Scalability
